## Chairperson's Report

### **Chairpersons Report**

Hello Members,

Coming towards the end of the year with everyone getting into busy mode, we were unable to secure Mari Garcia this year for her lecture on "Love and Marriage". But fortunately, that date on 18<sup>th</sup> October will now be filled by the popular Kim Akinta who has been booked in for a Zoom session on "Midpoints". It will be held at the South Perth Learning Centre. Links to Zoom will be sent to members who have paid for this event and prefer to watch from home. I am looking forward to brushing up on my midpoint knowledge, as it has gone a bit rusty over the years, through lack of use.

It should be a nice get-together for Kim, with a cup of tea and some biscuits, and a bit of socializing and catchup. Mari Garcia will be giving her presentation early next year, which is something to look forward to.

We will have a great finale to the year with Jeannette Lewis-Hill speaking world-wide on Breaking Down the Borders on Friday 6<sup>th</sup> November at either 6:00pm or 7:00pm. She will be presenting on the topic "Musing on the Number Twelve". It will be substantially different from her previous talk on the Twelve Tribes. There are many international astrologers lecturing over three consecutive days and we are very proud that Jeannette is representing Perth, WA.

We also, have the AGM on the 22<sup>nd</sup> November, which should be a great deal of fun. Barbie always has great themes for this event plus quizzes and lots of laughs. Everyone is invited so please support us if you can.

Best wishes,

Best wishes,

***Jeff Farrow***

## Our Number is 12

This presentation explores one of the great foundations of astrology, the Number 12, which is profoundly connected with cosmic and earthly measure and life. Remembering that the chart is referenced to physical objects and spatial points, and yet expresses spiritual truths, it is natural to turn to Sacred Geometry and Sacred Number to better understand the building blocks which underlie our interpretations of the Heavens.

The mystical 12 is present in nature, psyche, society, and spirit. There are 12 signs and 12 houses; 12-fold geometry generates our common aspects. History has recorded sacred 12-tribe nations in which astrological symbolism is made manifest on earth, yielding great success for the culture during the time the system is in operation.

There is both solar and lunar knowledge in the duo of 12 and 13, where the mystical centre has been recognised in countless religions. Think of King Arthur and the 12 Knights, or Jesus and the 12 Apostles.

The study of 12 is uplifting, inspiring, and reassuring as we learn how deeply our art is based on cosmic structure.
