## from the President,

The Great Eclipse has come and gone, and on August 26<sup>th</sup> as I write this, the "king" of America is still in office. Eclipses are effective over a longer time span than most astrological movements, and perhaps there is a drama yet to come. Or perhaps the Charlottesville riots were so deeply symbolic of what is happening to that country that they are the main message from 29 degrees Leo.

An eclipse upon the ascendant of the US President, which is also conjunct Regulus, would seem certain to bring high drama. There has been a question as to whether Trump does actually have 29 deg. of Leo rising. To get an excellent perspective on this matter, have a look inside at what Terry MacKinnell has written about The Donald's birth time. Also read the words of James Braha.

I would like to take this opportunity to announce that our long-standing treasurer, Patricia Johns, is retiring effective in early September. Patricia finds herself with too many commitments, and she will hand over to the very able Jenny Coad. This is by committee agreement and is effective until the AGM elections.

Patricia has done a stunning job of streamlining our books and has handled all transactions and duties with great efficiency and punctuality. [She has a Virgo Sun.] We extend our thanks and admiration to her for a job incredibly well done. And a warm welcome to Jenny!

On September 17<sup>th</sup> we have another presentation from Del Meredith; this time on the Huber method of time progressions. I have read a portion of the Huber book, and the method is rich and interesting, and seems very well researched. It will be a treat to hear about it. Details inside this issue.

## Editorial:

Eny, meny,miny, mo, will he stay or will he go?

No prizes are offered for guessing who I'm talking about here as you are all well aware of the subject. In this issue you can find out what exactly Vedic astrologers make of Trump's chart keeping in mind that Vedic astrology is far more fatalistic than Western astrology. Terry MacKinnell and James Braha (many of you will have purchased his book recently) share some very interesting insights into Trump's character with us on pages 5 and 6 in this issue.

And congratulations go to John Michael on passing his calculation exam.

Joseph from the FAWA

Patricia Johns is a past President of the FAWA and has made the decision to retire in early September. Some of the newer members will know her better as our Treasurer and committee member. Patricia can always be relied on to make sure our stomachs are full and there is enough variety in the choice of tea on offer for the day. These are the little things we will miss, this is what endears us to her.

On Sunday 17<sup>th</sup> of this month Del Meredith is back with us to explain the Huber method of timing in the chart. Following the advert in this month's issue are specific details for printing your Koch charts for the afternoon and also listing other items to bring along with you. Once more I am urging you all to come prepared to get the best out of the afternoon. If anyone has a problem printing their chart out you may send me your details and I will bring a printout along with me on the day for you.

Warm regards,

*Carol Jenkins*

**? Quote of the month:** It's apparently a fact that since the start of the Trump Presidency many Russian Diplomats have died unexpectedly and some inexplicably. Questions are now being raised in DC and at the Kremlin as to why????

The Washington Post's Philip Bump has come up with the suggestion that "Donald Trump had been elected president with the quiet support of Russian actors and someone at the Kremlin was now mopping up the evidence."

- Please address all other suggestions to 1600 Pennsylvania Avenue.

...NEXT EVENT in SEPTEMBER...

# MYSTERY of TRUMP's correct birth time revealed

VEDIC INTERPRETATION by Terry MacKinnell  
and James Braha

## ⌘ Part One by Terry MacKinnell

Since the year 2000, everything has changed. Astrologers now use a multiplicity of house system, points, approaches (Hellenistic, traditional, modern, Huber and so on). At this stage in the evolution of astrology, the growth point is diversity. To be multi-lingual and be able to be competent in more than one approach to astrology will bring its rewards. (For more details on the astrology of astrology, see "Astrology Through the Ages" at: <https://macroastro.wordpress.com/2017/07/30/astrology-through-the-ages/> )

For me, my main experience of diversity is to be competent in both western and Vedic astrology which I have applied to the vexed issue of Donald Trump's birth time. I regularly use this approach when trying to rectify the time of birth of someone with either an unknown birth time, or a range such as 2 am to 4 am. Whatever the real birth time is, both the western and Vedic charts must perform, so it makes it easier to confirm a rectified result. Due to the influence of Hellenistic and traditional astrology, I also mix and match my use of outer planets, and use some pure Hellenistic techniques such as profections in some situations."

I regularly come across this claim of an earlier Leo ascendant for Trump. However, what is overlooked by mono western astrologers, if his western ascendant shifts from 29 degrees Leo to 17 degrees, this radically changes his Vedic chart as a western 29 degrees Leo ascendant produces sidereal Leo in the Vedic chart while the 17 degrees western Leo results in a sidereal Cancer rising chart. In other words, his Vedic chart completely changes.

Based on the earlier timeframe, it indicates that Trump should have a serious long term health problem or die young?

It would also indicate someone with a stunning intellect???

It would also suggest either a strong drive towards spiritual fulfillment or at least living in or regularly visiting exotic foreign locations.

Furthermore, his Moon would be fallen in his 5<sup>th</sup> house indicating some disaster associated with his children, especially his eldest son.

The 29 degree chart translated to Vedic has the chart of a billionaire with a stunning propensity to make money and lose money).

While both versions of his chart promote authority, his 29 degree chart indicates fame due to the Sun being located in the 10<sup>th</sup> house.

Rahu in the 10<sup>th</sup> house makes him think about the future but also indicates he can never be satisfied with the level of attention he gets as he will always want more.

It shows his eldest son with strong career potential.

It indicates Trump is combative with a difficult personality.

It shows that while his ability to verbalise is incredibly powerful, it is also full of malice due to stationary Jupiter fallen in the 2<sup>nd</sup> house of communication.

I could go on, but the earlier birth time just does not fit Trump nearly as well as his later birth time!

Following is an extract on Trump from the famous Vedic astrologer, James Braha, which he wrote in 2016 prior to the US Presidential elections and based on the birth time on Trump's birth certificate.

## ⌘ Part Two by James Braha

### HILLARY'S EXACT FALLEN SUN and TRUMP'S STATIONARY JUPITER – OUCH

Regarding Trump, I have never seen a chart so strongly indicating leadership and fame. I am NOT saying he is a good leader by any stretch, just that the chart is stronger than any that I have seen in 35 years of practice - analyzing thousands of charts for clients and studying those of presidents and celebrities. It far exceeds any presidential chart in power and fame than any president since the 20's - which are the ones I have studied.

He has a LEO ascendant (leadership) with the Sun tightly conjunct Rahu (north node) in the Taurus 10th house - aspected by a FULL MOON. And the Moon is aspecting TAURUS, it's exaltation sign making the aspect even better. Rahu alone in the 10th house is extremely beneficial for fame and power. On top of all this, his stationary Jupiter is also aspecting the 10th house. This is an enormously strong 10th house. While Trump's Jupiter is poorly placed by sign in Virgo, it is exactly stationary. This increases luck tremendously in ALL areas. Even though Jupiter is very poorly placed by sign, in Virgo, in the 2nd house (money) he has still managed to become hugely wealthy.

There will, however, also be some serious problems from that stationary Jupiter, especially since the Jupiter dasa has started. Jupiter in Virgo is likely to produce trouble with the law. According to the media, he already has some law suits against him, and I believe these will dog him for quite a while now in a way perhaps similar to Hillary's e mail problems.

Now for the big problems of Trump's career, which are formidable: the reasons for his many bankruptcies and scandals and failures are due to his massively afflicted 10th house ruler - Venus. Venus is in the terrible 12th house and is TIGHTLY conjunct Saturn, which is in Cancer, a sign Saturn dislikes. This means Saturn hurts Venus far worse than it normally would in its conjunction. In my list of negative priorities, I mention the 2nd worst affliction to a planet is being TIGHTLY conjunct a malefic. Hence Trump's downfalls and bankruptcies and scandals and so on.

I have not done a long term analysis of Trump's chart, but I would expect his worst problems, bankruptcies and such, to have occurred in his Venus sub periods. Venus is terrible for him.

In the end, while this election stunned almost everyone, bear in mind that Hillary entered election day in the WORST dasa of her life, just as Trump entered the most powerful period of his - the stationary Jupiter. Now, what remains to be seen is how serious Trump's law suits will be and whether there are other legal problems coming to his presidency. These are of course, my perceptions and judgements. No doubt, others may see things differently. Take it all with a grain of salt.

Blow is my original post from January, 2015. There was a fuller discussion, but I don't know how to access it without having to scroll down my timeline for 20 minutes (lol).

#### ESPECIALLY FOR HINDU/VEDIC ASTROLOGERS:

I noticed that on Feb. 22 Hillary enters her 6 year SUN DASA (major period). Her sun is in the 10th degree of LIBRA - it's WORST POINT OF FALL. This is a serious vulnerability.

A month after her Sun SUBPERIOD started, M. Lewinsky testified and told everything. Now comes the MAJOR PERIOD! When planets are in the highest degree of fall, they usually indicate extremely rough circumstances. This is going to be a painful period, which could be personal or professional - or both. The Sun represents authority figures and government, so there are likely to be troubles there. And because the Sun rules men, it's going to affect her husband badly too. Certainly I've seen dasa periods that don't produce what is expected, and if she makes it to May or June without trouble then she should be fine.

But I'll be more surprised than usual if that happens.

I think the trouble starts in late Feb or in March
